

CUSHIONING SUBSTRATES for GYM FLOORINGS

eco-re-flex

eco-mousse

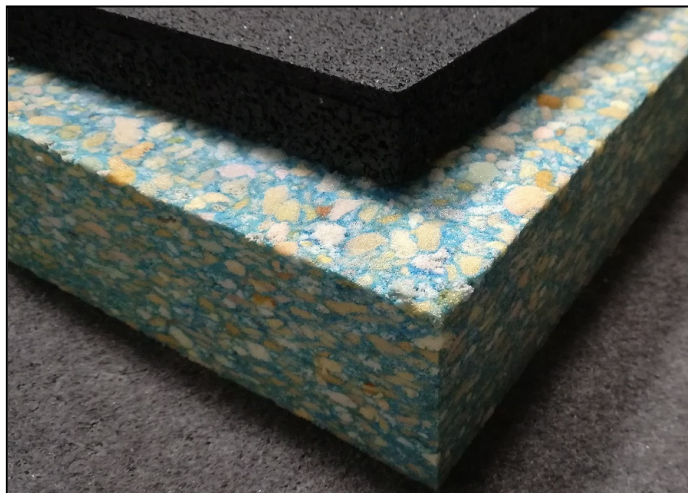

**Cushioning underlays suitable for all rubber floorings
for crossfit and weightlifting areas**

Produced with agglomerate

of polyurethane foam

or

of epdm rubber foam

Composition

eco-re-flex : high density agglomerate of polyurethane foam

eco-mousse : high density agglomerate of EPDM foam rubber

Utilization

Cushioning underlay for all rubber flooring for crossfit and weightlifting

Useful to reduce vibrations and noises caused by falling dumbbells and barbells

Laying

Free laying under any type of rubber flooring

Technical details

Format sheets

Dimensions m. 2 x 1 or m. 1 x 1

Density eco-re-flex : 250 kg./mc.
eco-mousse : 300 kg./mc.

Thickness starting to mm. 10 up to 100 mm.

Features maintain thickness and elasticity over time (DLG Fokus Test)
absorb shocks and vibrations
acoustic insulation
avoid breakage of floors and particularly fragile slabs caused by rockers
they can be used with any type of rubber tile

Thickness	Price eco-re-flex	Price eco-mousse
mm. 10	€ 7,20/sqm.	€ 9,50/sqm
mm. 20	€ 14,30/sqm.	€ 19,00/sqm.
mm. 30	€ 21,50/sqm.	€ 28,50/sqm.
mm. 40	€ 28,60/sqm.	€ 38,00/sqm.
mm. 50	€ 35,70/sqm.	€ 47,50/sqm.
